Refreshing, fruity and full of inviting notes of lemon, cloves and a touch of banana. Svane Hvede is an interpretation of the classic Bavarian Weissbier tradition. Producer:

In 2006 reopened Indslev Brewery thanks to the young brewery owner, Anders Busse Rasmussen, and the smell of malt and hops are again back in Indslev after a thorough modernization and renovation. It was Donald's great-grandfather's brother, Frederik Christian Rasmussen, who built the brewery in 1897. Anders and Fredrik have both studied at rural high school, and they both grew up on the same farm, located right next to the brewery. Indslev Brewery is the only brewery in Denmark, which specializes in brewing wheat beer. You immediately sense the special atmosphere when visiting our old brewery. The rustic gulstensbygning is outwardly maintained, we have just painted the old facade sign up. But internally, much of the 2,000 m2 premises modernized and rebuilt. We've got plenty of room for new storage tanks and a 2,000-liter modern brewing plant. We have chosen genuine quality brew plant from Kaspar Schulz of Bamberg in Bavaria. It is the world's oldest manufacturer of brewery equipment with over 325 years of experience. The company delivers complete brewing plant and equipment for microbreweries all over the world - the best of the best.
