Producer:

The Inveralmond Brewery produce quality, award winning beers from their brewery on the outskirts of the City of Perth, Scotland. Established in 1997, Inveralmond was the first brewery in the area for 33 years. And it is an ideal area for brewing beer: magnificent surrounding countryside and history has inspired the original recipes which, coupled with the Head Brewer's experience, create beers of exceptional quality. There has been continual investment in the brewery, people and brands throughout the years, including the move to a purpose built modern facility in February 2010. The site is fully SALSA accredited and 18 experienced people are employed across brewing, distribution and commercial activity.
